PROFESSIONAL PROFILE

A highly motivated and detail-oriented 4th-year B.Tech student at SRM University, specializing in Java, SQL, and Cloud Computing. Proficient in developing efficient solutions, working with databases, and understanding cloud-based technologies. Solved 700+ problems on LeetCode, reflecting strong problem-solving and analytical skills. Strong communication skills with a focus on continuous learning. Seeking opportunities to apply technical expertise and interpersonal skills to support organizational success and innovation.

WORK EXPERIENCE

Data Analytics Intern – Last 3 Feet Marketing Solutions Pvt. Ltd. Jul 2025 – Aug 2025

- Assisted in collecting, cleaning, and analyzing marketing data for ongoing campaigns.
- Prepared Excel-based reports and dashboards to track key performance metrics.
- Generated basic insights to support campaign performance evaluation and decision-making.

Trainee – Web Development, Infosys Training Program Jun 2024 – Aug 2024

- Successfully completed an intensive web development training program.
- Acquired practical knowledge of HTML, CSS, JavaScript, and backend frameworks.

GenAI Powered Data Analytics Job Simulation – Tata (Forage)

- Completed a virtual job simulation focused on leveraging Generative AI for data analysis.
- Gained hands-on experience in data cleaning, visualization, and insight generation using AI tools.
- Applied data analytics in simulated real-world business scenarios, enhancing decision-making and analytical skills.

PROJECTS

Student Result Management System

- Built a software application that automates the recording, processing, and analysis of student academic performance.
- Enabled efficient result generation, grading, and report management for educational institutions.

Food Pooling System

- Developed a platform enabling users to share, request, and donate excess food within a community.
- Connected donors and receivers, helping reduce food waste and support people in need.

Advanced Note Taking Application

- A modern, smooth, and feature-rich note-taking web application built with vanilla HTML, CSS, and JavaScript. It includes a responsive UI, dark mode, rich-text editing, and a powerful search with live suggestions. [Live Demo](#)

Food Ordering Application

- Designed and developed an intelligent food ordering system that uses machine learning to recommend dishes based on customer preferences, order history, and browsing patterns. [Live Demo](#)

Sah Sahyog Sewa Samiti NGO Website

- Designed and developed a website for San Sahyog Sewa Samiti, an NGO, to showcase its mission, initiatives, and outreach activities.
- Created a clean, accessible online presence to help the organization connect with donors, volunteers, and the community. [Live Demo](#)
